

Greetings VGC members;

February 1, 2013

One of the goals for this New Year is to provide more frequent communication from your association leaders. Consequently, you can expect to see more news letters.

For the past two years it has been (and still is) a priority to reduce costs wherever practical. We are also seeking ways to reduce the waste of natural resources. Generating and distributing paper unnecessarily impacts our environment in a negative way – not only because of the paper and ink used in preparing it, but also because of the resources consumed in delivering it.

Newsletter communications from the VGC to members are posted on the VGC web page under the 'Communications' tab on the left side of the home page at the following internet web address:

www.VillagesofGarrisonCreek.com

In consideration of the above, **effective immediately paper copies of newsletters will be provided only to members who have contacted the office and requested them.** If you will continue to require hard copies of newsletters you should submit your request either by calling the VGC offices at 509-240-8659 or by emailing your request to:

VillagesofGarrisonCreek@gmail.com

You may also mail your request to:

The VGC
P.O. Box 694
College Place, WA 99324

Hard copies of past newsletters are available upon request. (These are posted on the internet as well).

It is recognized that some are unable to access the internet easily. And your association will continue to provide paper copies of newsletters to those who need them. If you are one of those individuals simply let us know of your need to continue receiving paper copies.

I would like to encourage each member of the VGC to 'Go Green'. Go paperless if possible. And finally, I would like to ask each of you to peruse the association's website regularly. Whether you are a member, or a non-member resident, you will find useful information posted on the web site.

Don Coleman
President - VGC MPMA
